

SEMINAR- VII

SCHOLARSHIPS FOR HIGHER STUDIES IN JAPAN

Takashi Nishizawa¹

Summary

A collaborative research was signed between Yamagata University and SAU. Under this collaborative research agreement some salient features and procedure of preparing study plan to apply for J.S.P.S. for higher studies in Japan are underlined

- * Regarding Students have enough talent as researchers
- * Students having eagerness and skillness in analysis works
- * Efficiency in English conversation is not counted

Screening of application

- * Research plan is the key for acceptance
- * Study plans are ranked from A to C
- * The student must understand what the originality is
- * Copy from the advanced studies is rejected

Excellent study plan

- * Hypothesis must be included in the study plan
- * The student should consider how the study plan contributes to the development of agriculture in Bangladesh
- * He should ask himself, the farmers really need to do it.

¹ Professor, Laboratory of Bioproduction, Yamagata, University, Japan. The seminar was presented in SAU Conference Room on December 12, 2005.
